

Assignment :- 04
COSA

User Administration VNC and KickStart Installation User Administration VNC and KickStart Installation

Prithviraj Nikam

7. Write a command to list the groups of user (sanjay).

The screenshot shows a terminal window titled "centos_2 [Running] - Oracle VM VirtualBox". The terminal prompt is "Sanjay@localhost:/home". The user has executed the command "su Sanjay" to switch to the Sanjay user. The prompt is now "[Sanjay@localhost home]\$". The user has then executed the command "groups", which outputs "Sanjay". The terminal window has a menu bar with "File", "Edit", "View", "Search", "Terminal", and "Help". The system clock shows "Oct 28 19:53".

```
centos_2 [Running] - Oracle VM VirtualBox
File Machine View Input Devices Help
Activities Terminal Oct 28 19:53
Sanjay@localhost:/home
File Edit View Search Terminal Help
[root@localhost home]# su Sanjay
[Sanjay@localhost home]$ groups
Sanjay
[Sanjay@localhost home]$
```
