

Module:-COSA(Concept Of Operating System And Administration)

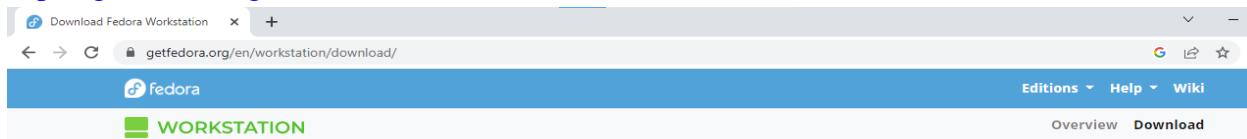

Date:- 21/10/2022

Assignment :- 02(Installation of Fedora OS)

Name:- Prauthviraj Nikam

Step 1:- First of all download Fedora OS from following website and select Fedora 37:x86_64 Live ISO.

<https://getfedora.org/en/workstation/download/>

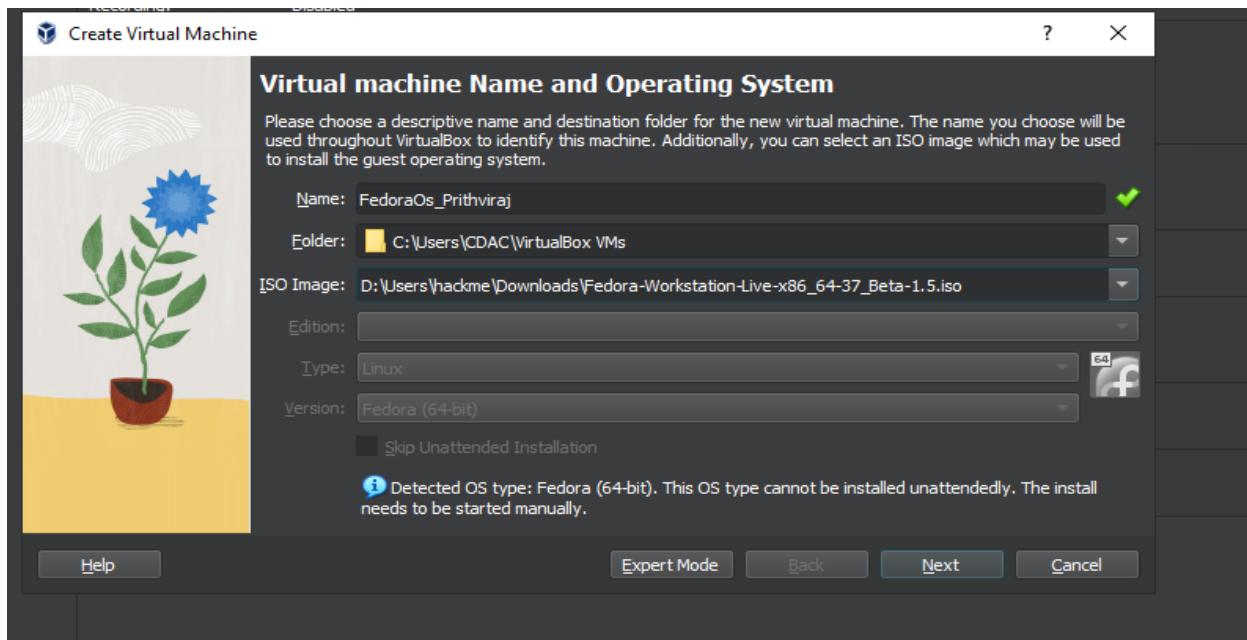

Download Fedora 36 Workstation.

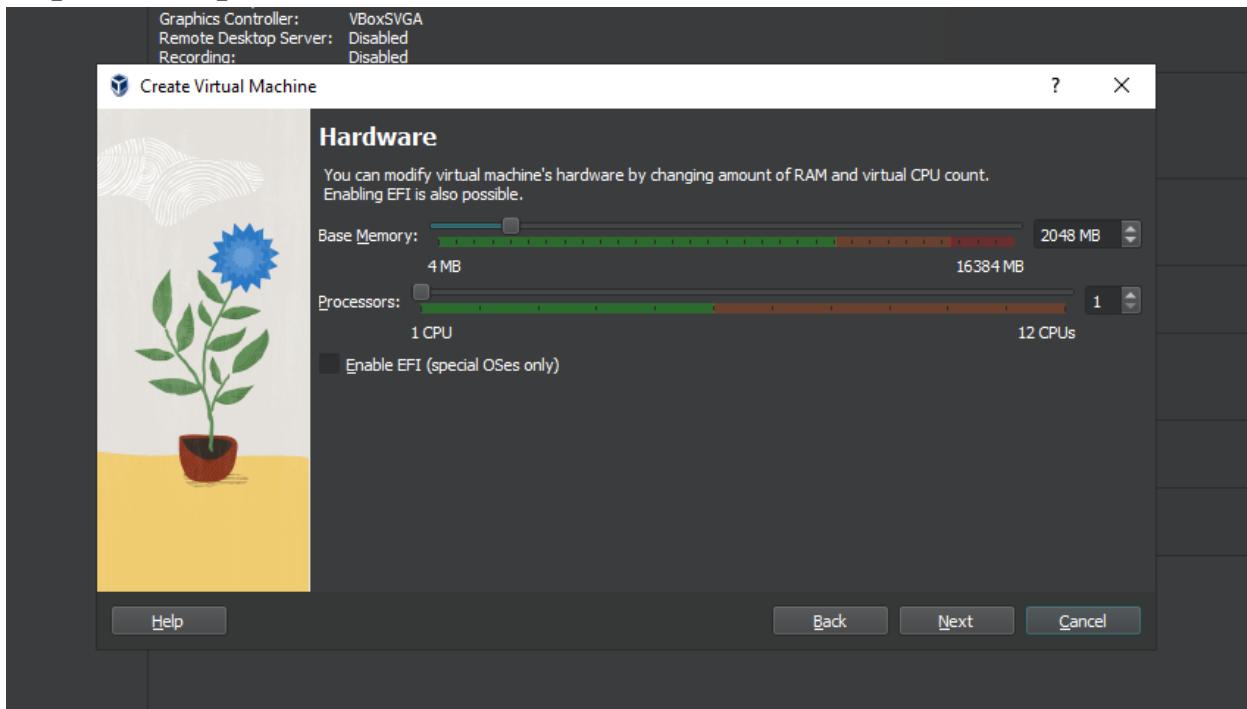

We're so glad you've decided to give Fedora Workstation a try. We know you'll love it.

A screenshot of the Fedora download page comparing options for Windows or MacOS versus Linux. On the left, under 'On Windows or MacOS?', it says 'Get started by using **Fedora Media Writer**, which makes it super easy to give Fedora a try.' It shows a screenshot of the 'Fedora Media Writer' application interface with icons for Windows and Mac. On the right, under 'On Linux or just want an ISO file?', it says 'Not sure how to use this file? [Learn here](#)'. It shows download links for 'Fedora 36: x86_64 Live ISO' and 'Fedora 37: x86_64 Live ISO Beta!', with the 'Beta!' version highlighted by a red box. Below these, there's a link for 'For ARM® aarch64:' and 'Fedora 36: aarch64 Live ISO' with a 'Download' button.

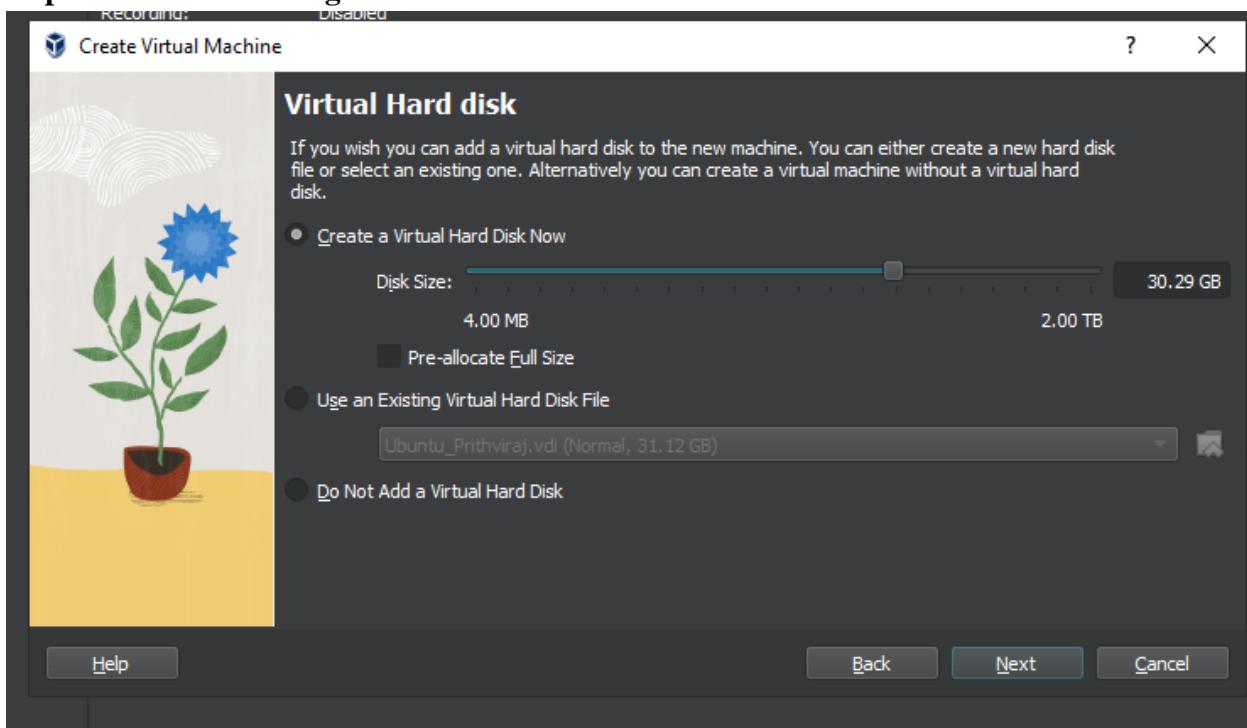

Step 2:-Open virtual box and Create New Virtual Machine Using Name Fedora_Prithviraj

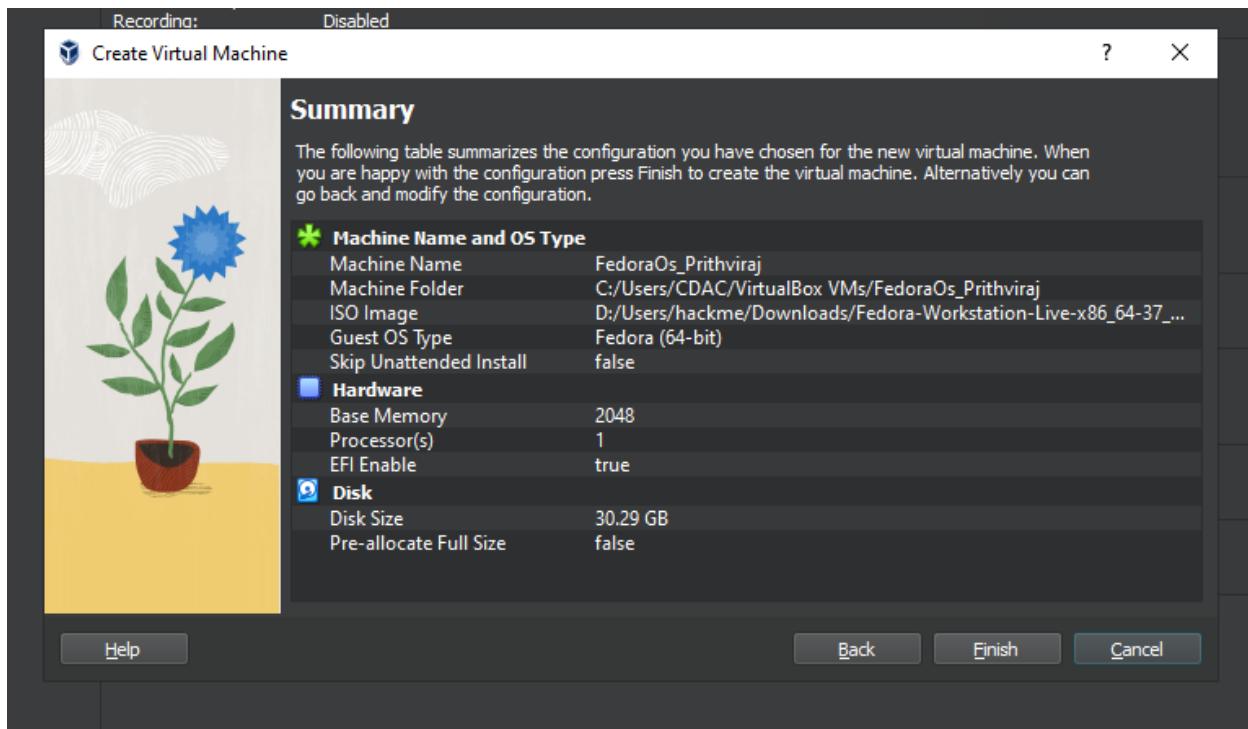

Step 3:- Now put Base Memory(RAM) = 2048 MB and Processors = 1CPU

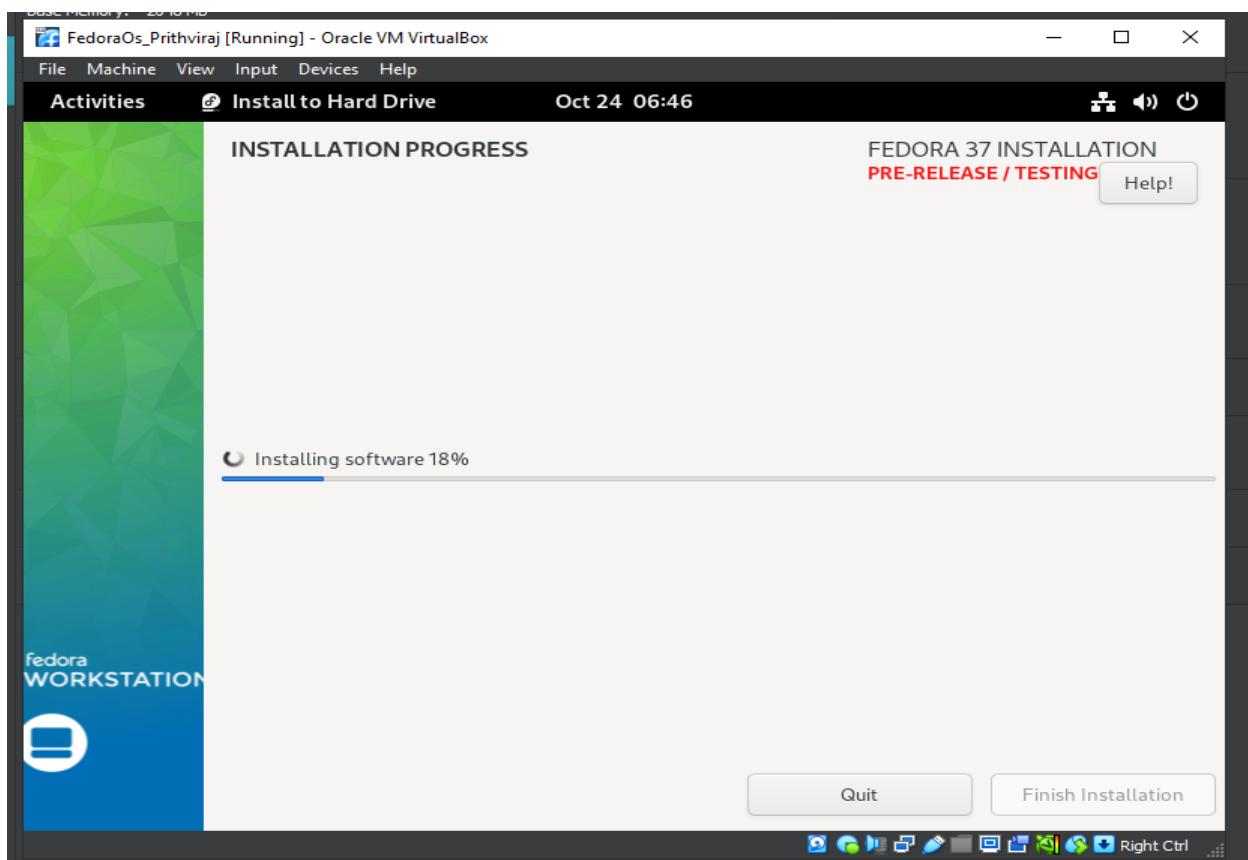

Step 4:- Now Put Storage = 30.29 GB
